

Eagle Face

Identity & attendance

The right people, in the right places.

Eagle Face recognizes enrolled staff at entrances for attendance and access, and flags people who are not on the list in restricted areas. Enrolment is done from photos, and you control who is enrolled and who can see the results.

● AT A GLANCE

Attendance Automatic	Enrolment From photos	Alerts Unknown persons	Reports Per employee
--------------------------------	---------------------------------	----------------------------------	--------------------------------

● KEY CAPABILITIES

Touch-free attendance

No cards or fingerprint queues at the entrance.

Access by role

Different areas for different groups of people.

Unknown-person alerts

Alert security when someone not enrolled enters a restricted area.

You control the data

Enrolment, retention and viewing rights are set by your administrators.

● HOW IT WORKS

01

Connect

Add your NVR or DVR, or an RTSP link. Cameras are pulled in automatically.

02

Draw zones

Mark the areas that matter on each camera image.

03

Set alerts

Choose who is notified, when and for which events.

04

Decide with data

Daily reports per branch, camera and use case.
