

Eagle Guard

Security & safety

Protect your sites, your people and your assets.

Eagle Guard brings security and workplace safety into one system. It watches restricted zones, perimeters and crowds, checks PPE on every worker, keeps people away from machines and edges, and tracks how your equipment performs, with an alert and image for every event.

● AT A GLANCE

Alert delivery Seconds	PPE checks Every frame	Coverage 24 / 7	Evidence Snapshot + clip
----------------------------------	----------------------------------	---------------------------	------------------------------------

● KEY CAPABILITIES

Security and safety together

One platform for intrusion, crowds, PPE, hazards and equipment on the same cameras.

Zones you draw yourself

Restricted areas, danger zones and schedules per camera, edited from the dashboard.

Compliance you can prove

Scores per site, shift and contractor, with every violation saved as evidence.

Fewer false alarms

People, vehicles and machines are recognized, so shadows, trees and animals are ignored.

● USE CASES • 45 (1/3)

Intrusion & access**7**

- 01 Restricted zone intrusion**
Alert the moment someone enters an area they should not, such as server rooms or warehouses.
[Industry](#) · [Logistics](#) · [Government](#)
-
- 02 After-hours presence**
Detect anyone on the premises outside working hours, with a schedule per zone.
[Retail](#) · [Industry](#) · [Education](#)
-
- 03 Perimeter and fence crossing**
Watch fences and walls for climbing or crossing along the whole perimeter.
[Construction](#) · [Industry](#) · [Logistics](#)
-
- 04 Abandoned objects**
Detect bags or objects left unattended longer than allowed.
[Government](#) · [Logistics](#) · [Hotels & venues](#)
-
- 05 Tailgating at doors**
Spot more than one person passing through on a single access.
[Banks](#) · [Real estate](#) · [Industry](#)
-
- 06 Doors and gates left open**
Alert when gates, shutters or doors stay open longer than allowed.
[Logistics](#) · [Industry](#) · [Retail](#)
-
- 07 Vehicles in restricted areas**
Alert when a vehicle stops in a no-parking or restricted zone.
[Government](#) · [Logistics](#) · [Real estate](#)
-

Behavior & crowds**6**

- 08 Loitering**
Flag people who stay too long near ATMs, entrances or parked vehicles.
[Banks](#) · [Retail](#) · [Real estate](#)
-
- 09 Crowd gathering**
Alert when people gather beyond a set number in public or sensitive areas.
[Government](#) · [Education](#) · [Hotels & venues](#)
-
- 10 Crowd density**
Measure density at halls, gates and squares to prevent dangerous overcrowding.
[Government](#) · [Hotels & venues](#) · [Retail](#)
-
- 11 Wrong-direction movement**
Alert on people or vehicles moving against the allowed direction in exits and lanes.
[Logistics](#) · [Government](#) · [Retail](#)
-
- 12 Fighting and sudden running**
Detect sudden running or aggressive movement in schools, malls and public areas.
[Education](#) · [Retail](#) · [Government](#)
-
- 13 Vandalism and property damage**
Detect damage to glass, walls, gates and public property.
[Government](#) · [Education](#) · [Real estate](#)
-

PPE compliance**3**

- 14 Helmet detection**
Flag any worker without a helmet in required zones.
[Construction](#) · [Industry](#) · [Logistics](#)
-
- 15 Safety vest detection**
Make sure every worker on site wears a high-visibility vest.
[Construction](#) · [Logistics](#) · [Industry](#)
-
- 16 Full PPE check**
Gloves, goggles and safety boots, configured per area.
[Industry](#) · [Construction](#)
-

● USE CASES • 45 (2/3)

Safety & emergencies

15

- 17 **Smoke and flame (visual)**
Early visual warning of smoke or flame in areas without sensors.
[Industry](#) · [Logistics](#) · [Construction](#)

- 18 **Blocked emergency exits**
Alert when exits and evacuation routes are blocked by goods, carts or vehicles.
[Retail](#) · [Hotels & venues](#) · [Industry](#)

- 19 **Lone worker monitoring**
Watch over staff working alone at night or in remote areas, and alert when there is no movement.
[Industry](#) · [Construction](#) · [Logistics](#)

- 20 **Climbing on structures**
Detect people climbing scaffolding, racks, fences or rooftops.
[Construction](#) · [Industry](#) · [Logistics](#)

- 21 **Water on the floor (visual)**
Visual early warning of water in server rooms, basements and stores.
[Industry](#) · [Real estate](#) · [Retail](#)

- 22 **Machine danger zones**
Alert when people enter the working radius of machines.
[Industry](#) · [Construction](#)

- 23 **Forklift and pedestrian proximity**
Detect people too close to moving forklifts and loaders.
[Logistics](#) · [Industry](#)

- 24 **Edges and height zones**
Alert when people approach unprotected edges and openings.
[Construction](#)

- 25 **Person down and medical emergencies**
Detect a person who has fallen and is not moving, and alert the nearest team.
[Industry](#) · [Construction](#) · [Logistics](#)

- 26 **Smoking in prohibited areas**
Detect smoking near fuel, chemicals or storage.
[Logistics](#) · [Industry](#) · [Construction](#)

- 27 **People in vehicle lanes**
Keep pedestrians out of lanes reserved for trucks.
[Logistics](#) · [Industry](#) · [Construction](#)

- 28 **Suspended load zones**
Keep people out from under crane loads and lifting areas.
[Construction](#) · [Logistics](#)

Safety & emergencies

15

- 29 **Spills and leaks**
Detect liquid spills or oil leaks on the floor around machines.
[Industry](#) · [Logistics](#)

- 30 **Maintenance lockout zones**
Alert when people enter machines or areas under maintenance.
[Industry](#)

- 31 **Vehicle speed in yards**
Estimate vehicle speed on sites and yards and flag speeding.
[Logistics](#) · [Construction](#) · [Industry](#)

Equipment & performance

7

- 32 **Machinery running after hours**
Detect equipment operating outside the hours you allow.
[Construction](#) · [Industry](#)

- 33 **Heavy equipment utilization**
Measure working versus idle time for excavators, loaders and cranes.
[Construction](#)

- 34 **Equipment idle alerts**
Alert when machines sit idle beyond a set time during a shift.
[Construction](#) · [Industry](#) · [Logistics](#)

- 35 **Truck loading cycles**
Count loading cycles and measure the time spent per truck.
[Construction](#) · [Logistics](#)

- 36 **Machine status lights**
Read stack and indicator lights to log running, stopped and fault states.
[Industry](#)

- 37 **Analog gauge reading**
Read pressure and temperature dials from camera images.
[Industry](#)

- 38 **Production line stoppages**
Detect when a line or conveyor stops and log the downtime.
[Industry](#)

● USE CASES • 45 (3/3)

Site management**4****39 Site access and headcount**

Count who is on site at any moment, by entrance and shift.

[Construction](#) · [Industry](#)

40 Shift compliance reports

Daily and weekly safety reports per site and contractor.

[Construction](#) · [Industry](#)

41 Work progress tracking

A visual daily record of progress in each project area.

[Construction](#)

42 Crew zone compliance

Make sure each contractor crew works only in its assigned area.

[Construction](#) · [Industry](#)

Assets & patrols**3****43 Camera tampering**

Know when a camera is covered, moved, blurred or loses its signal.

[Retail](#) · [Banks](#) · [Construction](#)

44 Equipment and asset removal

Alert when tools, generators or high-value assets leave their designated area.

[Construction](#) · [Industry](#) · [Logistics](#)

45 Guard patrol verification

Confirm that guards reach each checkpoint on schedule, with the image as proof.

[Real estate](#) · [Industry](#) · [Banks](#)

● TECHNICAL OVERVIEW

Video sources	NVR, DVR, RTSP streams and ONVIF IP cameras
Camera brands	Hikvision, Dahua, Uniview, Axis and other ONVIF cameras
Video formats	H.264 / H.265
New hardware	Not required: runs on existing CCTV
Dashboard	Web dashboard in Arabic and English
User roles	Administrator and user
Alerts	Live alerts with snapshot and event time; recipients and schedules per use case
Reports	Per branch, per camera and per use case
Multi-site	Map of all branches with live status
Custom rules	Models trained for your specific requirement

● INDUSTRIES

- Construction
- Government & smart cities
- Retail & malls
- Factories & warehouses
- Logistics & ports
- Car service, wash & spare parts
- Banks & finance
- Sports, hotels & venues
- Agriculture & livestock
- Education
- Healthcare

See it running on your own cameras.

Book a live demo and we will build the demo plan around your site and the problem you want solved.

● HOW IT WORKS

- 01 Connect**
 Add your NVR or DVR, or an RTSP link. Cameras are pulled in automatically.
- 02 Draw zones**
 Mark the areas that matter on each camera image.
- 03 Set alerts**
 Choose who is notified, when and for which events.
- 04 Decide with data**
 Daily reports per branch, camera and use case.
