

Eagle Sports

Sports analytics & officiating

Every rally, seen and scored.

Eagle Sports brings computer vision to padel, tennis, badminton, football and basketball. It calls the ball in or out, keeps the score, tracks every player and cuts the highlights automatically, using cameras instead of sensors or LED strips in the court.

● AT A GLANCE

Sports 5 supported	Line calls Every point	Highlights Automatic	Hardware in court None
------------------------------	----------------------------------	--------------------------------	----------------------------------

● KEY CAPABILITIES

Cameras, not sensors

No LED strips or sensors in the court surface; cameras mount outside the play area.

One system, five sports

Padel, tennis, badminton, football and basketball on the same platform.

For players and venues

Stats and videos for players; occupancy and usage insight for venue owners.

Replay on demand

Any point can be reviewed from the recorded angles in seconds.

● USE CASES • 24

Line calling & officiating

7

- 01 **Ball in / out calls**
Track the ball and call IN or OUT on every line, replacing LED-strip systems.
[Padel](#) · [Tennis](#) · [Badminton](#)
- 02 **Instant replay review**
Replay any point from several angles in seconds for disputed calls.
[Padel](#) · [Tennis](#) · [Badminton](#)
- 03 **Automatic scoring**
Keep the score automatically from rallies and points, shown on court screens.
[Padel](#) · [Tennis](#) · [Badminton](#)
- 04 **Service faults**
Detect foot faults and service line faults.
[Tennis](#) · [Padel](#) · [Badminton](#)
- 05 **Wall and glass rules**
Detect ball contact with glass, fence and floor in the right order.
[Padel](#)
- 06 **Goal-line and offside support**
Visual support for goal-line decisions and offside positions in training and local leagues.
[Football](#)
- 07 **Out of bounds and possession time**
Detect the ball leaving the court and track possession time.
[Basketball](#) · [Football](#)

Player performance

7

- 08 **Player tracking and heatmaps**
Track every player's movement and show court coverage heatmaps.
[Padel](#) · [Tennis](#) · [Badminton](#)
- 09 **Distance, speed and sprints**
Measure distance covered, top speed and number of sprints.
[Football](#) · [Basketball](#) · [Tennis](#)
- 10 **Shot classification**
Classify shots such as smash, volley, lob and drop.
[Padel](#) · [Tennis](#) · [Badminton](#)
- 11 **Ball and shuttle speed**
Measure ball and shuttle speed on serves and smashes.
[Tennis](#) · [Padel](#) · [Badminton](#)
- 12 **Shot charts**
Map where shots are taken and scored, by player.
[Basketball](#) · [Football](#)
- 13 **Rally and match statistics**
Rally length, winners, errors and points won per player.
[Padel](#) · [Tennis](#) · [Badminton](#)
- 14 **Training drills and progress**
Measure drill accuracy and follow each player's progress over the weeks.
[Padel](#) · [Tennis](#) · [Badminton](#)

Broadcast & highlights

4

- 15 **Automatic highlights**
Cut the best rallies, goals and baskets into clips automatically.
[Padel](#) · [Tennis](#) · [Badminton](#)
- 16 **Auto-follow camera**
A virtual camera that follows the play, with no camera operator.
[Football](#) · [Basketball](#) · [Padel](#)
- 17 **Live streaming with score overlay**
Stream matches with the live score and stats on screen.
[Padel](#) · [Tennis](#) · [Badminton](#)
- 18 **Personal match videos**
Send each player their own match video and stats after the game.
[Padel](#) · [Tennis](#) · [Football](#)

Court & venue operations

6

- 19 **Court occupancy**
Know which courts are in use, free, or booked but empty.
[Padel](#) · [Tennis](#) · [Badminton](#)
- 20 **No-show detection**
Detect booked slots where no one arrives, so the court can be offered again.
[Padel](#) · [Tennis](#) · [Football](#)
- 21 **Booking time compliance**
Alert when players stay beyond their booked time.
[Padel](#) · [Tennis](#) · [Badminton](#)
- 22 **Visitor and spectator counts**
Count visitors, spectators and peak hours across the venue.
[Padel](#) · [Tennis](#) · [Badminton](#)
- 23 **Court lights and equipment**
Detect court lights left on with no players, and track equipment use.
[Padel](#) · [Tennis](#) · [Football](#)
- 24 **Player safety on court**
Detect falls and injuries and alert staff immediately.
[Padel](#) · [Tennis](#) · [Badminton](#)

● TECHNICAL OVERVIEW

Video sources	NVR, DVR, RTSP streams and ONVIF IP cameras
Camera brands	Hikvision, Dahua, Uniview, Axis and other ONVIF cameras
Video formats	H.264 / H.265
New hardware	Not required: runs on existing CCTV
Dashboard	Web dashboard in Arabic and English
User roles	Administrator and user
Alerts	Live alerts with snapshot and event time; recipients and schedules per use case
Reports	Per branch, per camera and per use case
Multi-site	Map of all branches with live status
Custom rules	Models trained for your specific requirement

● HOW IT WORKS

01

Connect

Add your NVR or DVR, or an RTSP link. Cameras are pulled in automatically.

02

Draw zones

Mark the areas that matter on each camera image.

03

Set alerts

Choose who is notified, when and for which events.

04

Decide with data

Daily reports per branch, camera and use case.
